

**Yvon Pelletier, Executive Director  
Rives-du-Saguenay School Board**

---

Since 2008, Yvon Pelletier has been the Executive Director of the Rives-du-Saguenay School Board. He has over thirty-three years of experience in the educational sector, the majority of which he completed in primary or secondary schools and vocational training centres within his school board.

For him, interest in promoting culture is an important component in youth development and training. It is within this spirit that the school board has been cooperating with the City of Saguenay for several years on the Culture Education Committee in order to develop in students a taste for culture, and to introduce them to the wealth of our local and regional resources.

As ambassador, he is committed to making the link between the educational realm and the organizing committee for Saguenay, 2010 Cultural Capital of Canada, by encouraging students, parents and the community to engage in the different activities offered to the population.

He believes that the nomination of the City of Saguenay as Cultural Capital of Canada will pave the way for an even greater broadening of our cultural life and contribute to the general feeling that life is good in Saguenay!
